***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claim1, drawn to a mower deck pivotally attached to the tractor unit, classified in class 56, subclass 16.7.
  - II. Claims 2 and 3, drawn to a control system for a self propelled vehicle, classified in class 180, subclass 6.32.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the tractor with a mower deck attachment does not require the control system of the vehicle. The subcombination has separate utility such as the control system may be used to control other land vehicle without the mower deck.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Mr. Samuel Freund on 12/22/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3611

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143). Currently, no claim appears to be generic.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Winner whose telephone number is (703) 306-5957.
